EDUCATION

IIIT Bangalore Executive PG Certification, AI-Powered Full Stack Development | Oct 2024 – Jun 2025

Mithibai College, Mumbai Bachelor of Science, Biotechnology | 2020 – 2024

Shree Chaitanya Junior Kalasala, Hyderabad Higher Secondary (10+2) | 2017 – 2019

SKILLS

- Languages:** JavaScript, TypeScript, Python, HTML5, CSS3
- Frontend Technologies:** React.js, Tailwind CSS
- Hooks & State Management:** useState, useEffect, useCallback, Context API
- Tools & Platforms:** Git, GitHub, VS Code
- Concepts & Backend Fundamentals:** REST APIs, Local Storage, Native Animations, DOM Manipulation

EXPERIENCE

Fathom Marine Consultant | Full Stack Trainee 04/2026 – Current

- Skills:** React.js, Tailwind CSS, Python, UI/UX Architecture, Workflow Optimization
- Full-Stack Application Development** – Assisted in developing and optimizing features for internal applications, gaining hands-on exposure to end-to-end full-stack workflows.
- UI/UX Component Architecture** – Collaborated on mapping out intricate user workflows, successfully converting complex system flowcharts into functional, responsive frontend component architectures.
- Technical Documentation & Cross-Functional Collaboration** – Worked closely with senior engineering teams and management to document and refine system processes, technical requirements, and feature design.

CodexIntern | Frontend React Developer Intern 07/2025 – 08/2025

- Skills:** React.js, Tailwind CSS, JavaScript, REST APIs, GitHub, Version Control
- Component Engineering & Enhancements** – Collaborated on building, structuring, and enhancing reusable UI components using React.js and Tailwind CSS for responsive web applications.
- API Consumption & Core Tasks** – Executed real-world frontend development tasks, focusing on clean component structuring, state rendering, and efficient REST API consumption.
- Version Control & Agile Collaboration** – Managed source code, version control, and team development workflows via GitHub in a fast-paced environment.

PROJECTS

Expense Tracker App

[GitHub](#)

- Skills:** React.js | Tailwind CSS | Local Storage | State Management
- Developed a responsive web application to track income and expenses in real-time, focusing on client-side efficiency.
- Utilized React hooks for dynamic state management and integrated local storage mechanisms to ensure robust data persistence across browser sessions.

Random String Generator

[GitHub](#)

- Skills:** React.js | Vite | Tailwind CSS | Performance Optimization
- Created a utility application for generating highly secure random strings with integrated, lightweight clipboard functionality.
- Optimized rendering performance and automated string generation workflows using `useCallback` and `useEffect` hooks to prevent unnecessary component re-renders.

Animated Login Page

[GitHub](#)

- Skills:** HTML5 | CSS3 | JavaScript | DOM Manipulation
- Designed a fully animated, responsive interface utilizing native CSS3 keyframes instead of utility frameworks to deepen understanding of native styling systems.
- Implemented precise DOM manipulation and event handlers to deliver fluid, high-performance UI transitions and animations.

ADDITIONAL INFORMATION

- Languages:** English, Hindi, Telugu, Marathi
